JUNE 2023

NOTES & NEWS

Summer's Bounty

June has arrived, which means summer gardens are beginning to produce their bounty! This month is an ideal time to visit farmers' markets and check out seasonal displays at grocery stores for fresh selections of fruits and veggies.

Jet-Setters and 'Set-Jettors'

If you've ever been inspired to visit a location after seeing it on TV or in a movie, then the latest travel trend is for you. Nearly two-thirds of vacationers say they chose a destination based on a favorite show. Industry experts have nicknamed the trend "set-jetting," a play on the term "jet-setting."

Tasty Tzatziki

Cool and refreshing, the Mediterranean dip called tzatziki is especially pleasant during hot weather. Made from Greek yogurt, cucumber and herbs such as dill and mint, it's tasty served with fresh vegetables, bread and crackers. Or try it on sandwiches, as salad dressing, on baked potatoes or as a tartar sauce substitute for fish.

HIGHLIGHTS

Beautiful Life

Make time to reflect on all that makes your life and the world beautiful. Surround yourself with art, family or friends, and celebrate National Making Life Beautiful Day on June 11.

A Pearl of Wisdom

There are three birthstones for the month of June: alexandrite, moonstone and pearl. Traditionally, the pearl is the most favored of the three, with its creamy white color and iridescent shimmer. Pearls are the only gemstone to come from a living creature rather than the Earth's crust, and less than 1 in 10,000 wild oysters contain the jewel, making natural pearls one of the rarest gemstones in the world.

Rind Revamp

Stop waste and add extra nutrition to your diet by using food rinds and peels instead of tossing them in the bin. Make syrups or sugars to add to beverages out of citrus peels; use potato, carrot or beetroot skins to make chips; and candy or pickle almost any produce rind. You can even use cheese rinds to enhance the flavor of sauces and soups.

A Flip-Flop Summer

Flip-flops, sandals, thongs—whatever you call this breathable shoe, it's time to get casual and break them out for the summer!

BULLETIN BOARD

Pen Pal Power

While the invention of the internet has almost made handwritten letters a thing of the past, pen pals can still do a lot of good in your life. A pen pal is someone who you regularly exchange letters with—maybe an old friend you rarely see or even a stranger. Writing to a pen pal can ward off loneliness, help you discover new passions or perspectives, and enhance cognitive and social skills.

Flying Flag Facts

You probably see flags every day—from a sports team flag waving on a car to bright plastic flags marking utility lines in a construction zone. However, the most common type of flags are national flags. We celebrate the American flag on June 14, but Old Glory is in good company when it comes to interesting flag facts:

- An expert on flags is called a vexillologist.
- The current U.S. flag was designed by 17-year-old Robert G. Heft for a school project. He originally got a B- on the assignment, but it was raised to an A when President Eisenhower chose his design.
- Only one nation's flag isn't rectangular or square: Nepal. Representing the Himalayas, the country's flag is shaped like two stacked triangles and features a sun and moon.
- The color purple is found on the flags of only three nations: Dominica, El Salvador and Nicaragua.
- The oldest flag still in use belongs to Denmark! The simple red flag with a white Nordic cross was introduced in 1219 and adopted as the national flag in 1625.
- The Central American country of Belize has the most colors on their flag, with 12.
- When the Philippines is at peace, the blue stripe on their bicolor flag flies at the top, but when they are at war, the red stripe faces up instead.
- The Welsh flag has a large red dragon on it that personifies the fearlessness of their nation.

“A thoughtful mind, when it sees a nation's flag, sees not the flag, but the nation itself.”
—Henry Ward Beecher

Fun With Summer Reading

You may have fond memories of summer reading programs, which awarded prizes for finishing a reading goal. But you don't have to be a kid to benefit from summer reading challenges. Reading not only promotes lifelong learning, but it can also provide an escape from stress and anxiety. Your goal can be as simple as reading a certain number of books over the summer, exploring a

new-to-you genre or author, or reading for a set amount of time every day.

Find motivation for your reading goals by starting a journal and reviewing every book read; you can also post your reviews to social media. If you're crafty, make miniature versions of your finished books and add them to a jar for a physical representation of your completed goals. Kid-friendly ideas include tracking books read with a coloring page, giving small treats for every goal met, or quirky challenges like reading with a flashlight or to a stuffed animal. For added excitement, compete with friends or family members to see who can reach their goal first.

Many libraries offer summer reading challenges for all ages, and you can find lots of suggested book lists online. Bookstore and publisher websites are good places to look, too. Seek out the possibilities and settle in for a summer of reading adventures!

An Appetizer for the Masses

Are you looking for an appetizer that requires zero culinary skills and can please any crowd? A charcuterie board might be just what you need.

These scrumptious snack boards have gained popularity in recent years because they are completely customizable and flexible. You can adjust the featured foods based on price range, dietary restrictions or number of guests.

For the most satisfying board, go for variety. Grain crackers, water crackers and thin slices of toasted baguettes make good dippers. Choose several types of cheese—hard and soft, sharp and mild, flavored with herbs or fruits, or from different dairy sources—to please multiple palates and provide tasty texture. Create an impressive presentation by cutting hard cheeses into cubes, triangles, slices or fun shapes (use a cookie cutter!).

Pick deli meats like salami, ham and prosciutto, and fold, layer or twist slices for easy serving and added dimension. Other common additions include nuts, fruits and vegetables, spreads and dips, pickles and olives.

To assemble your board, begin with the platter. A wood or stone slab keeps foods cool; a cutting board or pizza peel works well. Next, place round dishes full of spreads, dips and pickled items. Arrange the cheeses, meats and crackers around the dishes, and finally, fill in the spaces with other goodies.
